HeadWaters Welcomes the Big Lake Preserve

On December 29, 2017 the Big Lake Preserve was donated to HWLC by the Big Lake Preservation Association. The Preserve is located on the southwest corner of Big Lake in Otsego County and is roughly 8 acres in size.

This property is comprised of a few different community types: a Northern Hardwood Forest, a transitional zone, a lowland mixed zone and a bog. We are very excited about this Preserve not only because of these varying ecosystems but it also tells a story of people joining together to protect a great piece of property.

Please be on the lookout for upcoming events or opportunities to make a difference and help to protect our "Up North".
