

Safety and Consideration Suggestions

1. Be respectful of your fellow hunters.
2. Because we are in a bovine TB (tuberculosis) area we recommend that you turn your deer heads into the DNR (Department of Natural Resources) for TB and CWD (Chronic Wasting Disease) testing.
3. Trails are not maintained during snow conditions.
4. We recommend no vehicles driving between 6am-11am and 3pm-dark as a courtesy to your fellow hunters unless there is an emergency.
5. Pack it in pack it out.
