The Power of One Day

HWLC recently received grant funding to begin construction of a boardwalk at our Sturgeon River Preserve. The grant funding came through the Otsego County Community Foundation from the Brendan Gorney Fund, the Rotary Club of Gaylord, and the Treetops Charity Fund as well as Home Depot.

Securing funding for this wonderful opportunity to bring people closer to nature **was just step one**. Now we need you! We are planning a work day in September to make this boardwalk a reality. We are looking for volunteers to help clear the path for the boardwalk as well as move lumber and help construct the boardwalk. The boardwalk will be handicap accessible and include two passing spaces and a platform. If you are interested in helping and would like more information please call the HWLC office or email ltoms@headwatersconservancy.org

[.org](http://www.headwatersconservancy.org). With your help, we can bring people closer to nature to help foster appreciation and understanding of the environment.

We believe in the **Power of One Day**. The impact volunteers can make in just one day will help us bring this amazing project to fruition.
